TELEPHONE
CABLE TV

As a White Rock Senior Living Community resident, I want you to be aware of other optional services offered at White Rock, specifically that we are able to offer simple hassle-free access to **discounted telephone and cable television.**

Access to telephone service is available exclusively to the residents at White Rock and is not available to the general public. White Rock Senior Living uses bulk purchasing abilities to create great savings for our residents. Telephone service is provided at a **discount of about 35%** when compared to other telephone providers in the area. In addition to cost savings, residents receive state-of-the-art voicemail, simplified dialing between apartments and management office, community messages, call waiting, and pinpoint location service for Emergency 911.

Likewise, cable television service is provided at White Rock and is exclusive to our residents. It is the same standard package and programming provided by other cable service providers in the area. The price is where we differ. White Rock residents are able to receive cable television at a **discount of about 30%.**

On the next page please find the current rate sheet for you to compare pricing with that of the other telephone and cable television providers. I believe White Rock will meet your needs and add to your monthly savings.

Sincerely,

Darlene Freeman
Community Manager
